

EAGLE ACCREDITATION

UNITED METHODIST ASSOCIATION

Join Us: EAGLE Communications Network ***Wednesday, November 17 from 11am-Noon (EST)***

EAGLE coordinators, communications and marketing staff are collaborating on ways to share resources through the EAGLE Communications Network, which launched in September. During our first call, participants from newly accredited EAGLE organizations, those with a long-standing involvement with EAGLE and even two organizations who are still moving through the accreditation process discussed numerous ways to promote the value of EAGLE with internal customers (staff/clients) and external audiences (board members, donors, churches, community).

As a first step to better support the needs of this Network, an EAGLE Communications Toolkit has been created in the EAGLE Accreditation Portal. The toolkit includes a news release template, sample social media posts and videos that can be downloaded and shared. The group looks forward to adding their own shared resources of ways they communicate the value of EAGLE. Email Emily Robbearts (erobbearts@ouruma.org) to request access to this folder.

Join our November call to further explore these resources and share ways your organization promotes the value of its accreditations.
